The analytical views in this book are not in any way serendipity; rather, they were well thought-out and structured as simply received. Thus arises the need to initiatively look back at the epoch of our existence on Earth as preceded by the following: survival of the fittest, search for food, where to live, sacrifices and rituals to appeal to God, brutalism against one another, religious sect formation, and deforestation due to uncontrollable population increase. Improvisation of wooden houses, trees of concrete, iron, and steel have been initiated, but, in a way, they have continually caused global warming to increase very much, at a gradual pace, as civilization advances through Machine Agemechanized farming, industrialization, and technological advancements, space exploration, and globalization of industries and corporate organizations. The heat increases at an unusual, unprecedented level due to greenhouse gas emission and thus the assumed greenhouse releases a light-weight carbon dioxide (CO₂) gas into the atmosphere, which is speculated to have formed impenetrable blanket. The presence of CO₂ is an indicator, pointing to a fact that this gas in question had been released in the past and is presently being discharged uncontrollably. More so, there seems to be no end in sight as the CO₂ continues to be sporadically expunged into the atmosphere. The process described above has continued to be expanding through all frontiers with no end in sight, where new neighborhoods are being built, Suburbs margining together as new Castles are evolving block by block, and concrete plazas are enveloping the Earth; so are the vegetative forest of trees are disappearing, causing global warming to increase exponentially. The increase becomes very much intense at an alarming rate in that it has now been considered to be adversely...
