Palgrave Macmillan. Hardcover. Book Condition: New. Hardcover. 294 pages. The heyday of the televised rocketman came before our actual travels in space occurred and was a burgeoning time in TV history. Before astronauts like John Glenn, Alan Shepard, and Neil Armstrong were household names, before the one small step that left Americas national footprint on the Moon, and before the wonders of science fiction became the wonders of science fact, battles were fought with Para-Ray guns and Cosmic Vibrators, Opticon Scillometers scanned through walls, heroes in jetpacks soared through the skies, and the universe was full of wonder. The fourteen essays featured here focus on series such as Space Patrol, Tom Corbett, and Captain Z-Ro, exploring their roles in the day-to-day lives of their fans through topics such as mentoring, promotion of the real-world space program, merchandising, gender issues, and ranger clubs - all the while promoting the fledgling medium of television. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Hardcover.
